ENERGY CONSERVATION

The board shall encourage and support an energy conservation and education program to substantially lower consumption of electricity, natural gas, oil, and water.

It shall be the responsibility of each district employee and student to actively participate in conservation efforts in order to reduce consumption to levels prescribed by state and federal guidelines. However, every effort will be made to maintain programs for the benefit of students.

The district will maintain accurate records of energy consumption and cost of energy. The principal will be accountable for energy management on his or her campus with energy audits being conducted and conservation program outlines being updated. Judicious use of the various energy systems of each campus will be the joint responsibility of the principal and custodian.

It shall be the responsibility of the Superintendent or his or her designee to implement, direct, monitor, evaluate, and report district energy conservation efforts.
