Dear Elementary Families,

A snack program has been started for elementary students and can be paid for either by bringing in exact change or by applying the cost to their lunch account. This is **once a week**, and is served **during the lunch hour**.

This snack item is not part of the complete meal and therefore will be an additional charge of $0.75.

To avoid confusion and unexpected charges on your child's lunch account, please let us know what you would prefer for your child/ren by selecting an option below.

Student Name: _____

_____My child can apply the cost to their lunch account whenever they choose to take the treat.

_____I do not want my child to purchase a treat using their lunch account and prefer he/she pays cash for the item.

Thank you!
