This form is used to notify us that an employee is making a mid-year change to a prior election due to a qualifying event.

Notification of an election change must be made no later than 30 days after the qualifying event.

The change could:

- Create an election when no prior election existed, or
- Increase or decrease a prior election, or
- Make an election after return from an unpaid leave that resulted in loss of eligibility, or
- Terminate (revoke) an election

For employees who did not previously have an election but experience an event that allows them to make an election, please be sure to complete Account Holder Information [1].

The change in election is effective the date the form is signed or the date of the event, whichever is later.

Example: Beth gets married May 5th and completes (signs) the form to increase her Health Care FSA election May 20th. Her requested change is effective May 20th.

Example: Joe fills out and signs the form to request an increase in his Health Care FSA election on August 15th in anticipation of the birth of a child. The child is born August 26th. Joe completes the form (provides the birth date) and the requested change is effective August 26th.

Example: Joe completes and signs the form to request an increase in his Health Care FSA on September 15th due to the birth of a child. The child was born August 26th. Joe's requested change is effective September 15th.

Qualifying Event

Check the appropriate box for the event that occurred providing for the requested election change for the Health Care FSA, Dependent Care FSA or Individual Billed Premium Account (IND) [2].

Provide a short explanation of the qualifying event and the rationale for the requested election change [3].

Check the appropriate box for the event that allows for the requested election change for the Group Insurance Premiums. If this is the only section that applies, do not submit this form to Employee Benefits Corporation. Simply keep a copy of the form for your records [4].

Election Information

Complete the election change amounts for each affected account [5].

Changes in the accounts election amount result in a "blended" amount of coverage for the plan year and a "blended" payroll deduction from the effective date of the change to the plan year end. The newly elected amount must result in a payroll deduction going forward and cannot be less than expenses already reimbursed.

Example: Mary requests an increase in her Health Care FSA election from \$600 to \$1,400 due to her marriage on May 1. Assume this is a calendar year plan, deductions are taken monthly and Mary had been reimbursed \$400 prior to her change in election. Mary had \$200 deducted prior to the change (\$50/month X 4 months). Therefore, in the remaining 8 months, she will have \$1,200 deducted (\$1,400 election - \$200 deducted prior to change). Mary has \$1,000 of coverage available after the change (\$1,400 new election - \$400 prior reimbursement).

Example: Beth had a \$1,200 Health Care FSA election prior to taking an unpaid non-FMLA leave. Assume this is a calendar year plan, deductions are taken monthly, the leave began May 1 and Beth had been reimbursed \$700 prior to her leave. Upon her return August 1 (3 months later), Beth elects \$900 for the remainder of the year. Beth had \$400 deducted prior to her leave, so she must have \$500 deducted from August 1 to December 31. Beth has \$200 available for reimbursement for the remainder of the year (\$900 new election - \$700 prior reimbursements).
